etc.) **Study abroad somewhere I have never been before**

Please have your Academic Advisor fill out the section below:

Advisor Name (Printed): **Angelica Rojas** Date Completed: _____

Advisor Signature: _____

REFLECTION QUESTIONS

:

Please answer the following questions on a separate piece of paper. Each answer must be at least 3-4 sentences long.

1. Was the experience of meeting with your advisor helpful? Explain why or why not.

So far, no. My advisor has not answered my emails yet after telling me to send her my

classes. I am aware that they are swamped with work, so I am being patient. However, I need to sign up for classes sooner than later

2. What are at least 2 things you learned during this process that you did not know before? These can be things about the advising process as a whole, about yourself, your future plans, etc. **I learned that I should not take more than 16 credits, maybe even 15. I must focus diligently on my goals to accomplish them but not spread myself too thin. I also learned that I should be growing my experiences as much as possible by doing study abroad as frequently as I and my finances can.**
